

Woodpecker Wireless Dental Curing Light LED.B

Features

1. Wireless. The battery can be replaced
2. Time setting: 5s 10s 15s 20s
3. Large capacity battery. A full charge can be used more than 400 times continuously under 10s working time mode
4. Low standby power consumption with forty day's standby time
5. Constant light intensity for Woodpecker dental curing light. The solidification effect is not affected by the consumption of remaining power

Specifications

Power Input: AC100V-240V 50Hz/60Hz

Net Weight: 145g

Light Output: 850mW/c-1000mW/c

Dimensions: 31mm x 34MM x 260MM

Consumption Power: $\leq 8W$

Environment Temperature: 5 to 40

Relative Humidity: $\leq 80\%$

Wave Length: 420nm to 480nm

Light Source: blue light

Battery Voltage and capacity: 3.7V/2000mAh

Power Supply: rechargeable Lithium battery

Battery model: CMICR18650F

Battery voltage and capacity: 3.7V/2000mAh

Input of adapter: 100V to 240V - 50HZ/60Hz

Built-in fuse of adapter: 1A/250V

Dimensions: 31mm x 34mm x260mm

Protection type against electrical shock: Class II equipment

Protection against harmful ingress of water or particular matter: ordinary equipment (IPX0)

Safety in the presence of flammable anesthetic mixture with air, oxygen nitrous oxide: not suitable under this condition
