Cordless Endo Motor with Apex Locator EM-15

Tree Dental · Model EM-15

Cordless endodontic motor combining rotary root canal preparation with an integrated apex locator. The colour LCD displays torque, speed and file position in real time, with auto-reverse and auto-stop for safe preparation.

Key features

- Built-in apex locator with real-time file position display
- Auto-reverse and auto-stop at preset torque
- 9 programmable memory settings
- Cordless, rechargeable battery operation
- Mini 16:1 reduction contra-angle head

Applications

- Root canal preparation
- Endodontic retreatment
- Dental clinics and hospitals

Technical specifications

Speed range	100-1000 rpm
Torque range	0.4-5.0 N·cm
Contra-angle	16:1 mini head, 360° rotatable
Display	Colour LCD
Battery	Rechargeable lithium, 2000 mAh
Modes	Reciprocating and continuous rotation

Restorative Instrument Kit RK-12

Tree Dental · Model RK-12

Complete 12-piece restorative dentistry kit with examination, composite placement and finishing instruments in a stainless steel cassette tray. Ergonomic hollow handles reduce hand fatigue during long procedures.

Key features

- 12 essential restorative instruments
- Medical-grade stainless steel construction
- Autoclavable cassette tray included
- Ergonomic hollow lightweight handles
- Mirror finish resists corrosion

Applications

- Composite restorations
- Amalgam placement
- Clinical examination

Technical specifications

Contents	12 instruments + cassette tray
Material	Stainless steel, medical grade
Tray	Autoclavable stainless cassette
Sterilization	Autoclavable, 135°C
