

SURGICAL EQUIPMENT

ENT Instruments

Diagnostic and operative instruments for ear, nose and throat practice. Covers otoscopes, aural and nasal specula, tonsillectomy sets, micro-ear instruments and laryngeal mirrors. Fine working tips are polished to protect delicate mucosal tissue.

Highlights

- Micro-fine polished tips
- LED diagnostic instruments
- Fibre-optic laryngoscope options
- Complete tonsillectomy trays

Applications

ENT OPD • Tonsil & adenoid surgery • Micro-ear surgery
