

SURGICAL EQUIPMENT

Gynecology Instruments

Instruments for obstetric and gynecological examination and surgery, from Cusco specula and uterine sounds to D&C; sets and delivery trays. Sizes are supplied across small, medium and large to suit routine OPD and theatre use. Smooth edges and rounded tips reduce patient discomfort during examination.

Highlights

- Graded speculum sizes
- Polished atraumatic edges
- Complete D&C; and delivery trays
- Autoclave-safe construction

Applications

Gynecology OPD • Labour room • Gynecological surgery
