

SURGICAL EQUIPMENT

Laparoscopic Instruments

Minimally invasive instrumentation and imaging for laparoscopic theatres. Covers trocars, graspers, dissectors, clip appliers, insufflators and full HD camera towers. Modular instruments dismantle into three parts for thorough cleaning and sterilization.

Highlights

- 5 mm and 10 mm instrument platforms
- Modular three-part design
- Monopolar cautery connection
- Full HD / 4K camera systems

Applications

Laparoscopic cholecystectomy • Gynecological laparoscopy • Diagnostic laparoscopy
