

SURGICAL EQUIPMENT

Minor Surgery Instruments

Compact sets for outpatient procedures, dressing rooms and emergency departments. Typical kits cover suturing, incision and drainage, dressing changes and suture removal. Available in stainless steel trays or peel-pouch sterile single-use versions.

Highlights

- Lightweight OPD-ready trays
- Sterile single-use options
- Colour-coded tray lids
- Rust-resistant finish

Applications

OPD & dressing rooms • Emergency department • Health posts & clinics
