

SURGICAL EQUIPMENT

Surgical Power Tools

Battery and pneumatic drill, saw and reamer systems for orthopedic and neurosurgical work. Sealed housings withstand full autoclave cycles between cases, and quick-couple chucks accept standard AO and Jacobs attachments. Supplied with batteries, chargers and a sterilization case.

Highlights

- Autoclavable sealed housing
- AO / Jacobs quick couplings
- Dual battery packs supplied
- Low-vibration brushless motors

Applications

Orthopedic trauma • Arthroplasty • Neurosurgery & spine

Products in this range
